Subject: PLAN - Typical Signing for COZEEP/MAZEEP Reduced Speed Zone

A memorandum dated November 22, 1996, discussing work zone speed limits was sent to all District Directors along with a plan for signing the reduced speed zone (copies attached). The second advance sign package inadvertently showed an R2-4 "45 ZONE AHEAD" sign below the C23 sign; that should have been an R2 "SPEED LIMIT 45" sign as shown on the attached plan.

Please see that this revision gets distribution to all interested people in your district who are responsible for the design and/or placement of traffic control devices through work zones.

If you have any questions, please call Mr. William Hoversten, of my staff, at Calnet 464-4555, (916) 654-4555 or Mr. Fred Jager at Calnet 464-5528, (916) 654-5528.
